

# **SPEC** Hands on Writing Program

Does your child have sloppy handwriting?

Does he/she complain that their hand hurts when writing?

Does he/she avoid writing or struggle while completing writing assignments?

**Good handwriting is a key foundational skill through the school years.**

**However, it can be challenging for some children.**

**With the help of our occupational therapists, handwriting can be a fun and easy task for your child.**

## **Handwriting Without Tears**

protocol using multi-sensory methods  
to teach effectively, with joy.

### Target skills

- Proper seating and set up for handwriting
- Proper handwriting grasp on writing utensil
- Proper letter formation and spacing
- Handwriting speed and legibility
- Memory of letters and numbers
- Orientation, placement and sizing of letters and numbers

Parents will receive pre-test and post-test scores along with practice home activities.

Participants are required to attend all scheduled sessions.

No special arrangements will be offered for those sessions missed.
