

## Encouraging a Lifetime of Learning

### What is Toddler Talk?

A unique environment that provides

**OPPORTUNITY + UNDERSTANDING + COMMUNICATION + SELF-CONFIDENCE = SUCCESS**

A creative, bilingual atmosphere that enhances and promotes all areas of early childhood development through age-appropriate activities using a multidisciplinary perspective. The principles of Toddler Talk are based on over 25 years of experience offering an environment that provides opportunity, understanding and self-confidence to enhance communication and learning. Each child is admitted with careful consideration of the whole child and their unique family dynamic and goals. We strive to infuse the “joy of learning” in each child as they progress towards success.
